December 13, 2007

To Whom It May Concern:

ACRA Electric Inc. was established in Cape Coral in May of 1975 and has grown to become one of the largest and most successful Electrical Contractors in the area. A family owned business, ACRA is an acronym for Anthony Greco, his wife Carmella, and their sons Robert and Anthony Jr. Anthony and Carmella retired in 1996, Robert is President, Anthony Jr. is Vice President, and both hold current State Certified Electrical Licenses.

Like many small businesses, ACRA Electric Inc. started out as a one truck outfit, doing residential wiring in the local area and building a customer base through recommendations from satisfied customers. In 1976, we opened our office on SE 46th Lane, and we have been at the same address ever since. The building, starting at 1500 square feet, has grown to over 10,000 square feet with fenced parking for our fleet of 45 vehicles. Over the years, the Company has expanded to 4 Divisions – Residential, Commercial, Service, and Marine.

The **Residential Division** has provided wiring for thousands of homes all over Southwest Florida. Our residential electricians pride themselves on neat, organized wiring, using the best materials – Square D panels, Leviton devices, Progress, Nutone, and Lithonia products. We work for the area's best builders.

Our **Commercial Division** has done a wide range of work in the area – Condominiums, Commercial Buildings such as the 6 Story Suntrust Headquarters, the Ft. Myers Skatium, Medical Facilities such as Cape Coral Surgery Center and Healthpark Care Center, Retail and Strip Centers such as Rumrunners Restaurant, Entrada Plaza, Forum Center Shoppes, Coconut Point Plaza, etc. We have done many Bank Branch Buildings for Busey Bank, Fifth Third Bank, and Florida Gulf Bank. Supermarket experience over the years includes a Winn Dixie on Bayshore Road, a Super X on Mcgregor Blvd., and a Kash and Karry on Joel Blvd. in Lehigh Acres. We are currently working on an 80,000 Sq. Ft. Lee County Evidence Lab, and a Saturn Dealership in Cape Coral for Ringland Construction Co.

Officially started in 1988, our **Service Division** offers 24 hour emergency service, aerial truck service, repair and remodeling work in residential and commercial buildings. We have many regular accounts with area businesses for their building maintenance, and this department also specializes in electric shutter wiring for Rolsafe. You will never talk to an answering machine when you call us!

The **Marine Division** prides itself on high quality boat lift wiring. All docks are wired using heavy wall Schedule 80 PVC, stainless steel fasteners, and copper wiring. We offer Marine Pedestals with a choice of outlets for any requirement, lighting systems for docks that will last, and remote

controls for boat lifts that will add safety and convenience. We work with our customers to design a complete system on paper before we begin work.

The office is open from 7:00 AM to 5:00 PM weekdays and there is an operator on duty after hours for emergency service.

The Greco family moved to Southwest Florida in 1973 from Long Island, New York. Cape Coral became their home, and just as their business has grown, their family has grown as well. Robert and his wife Denise have two beautiful daughters, Laura and Raeann, and Anthony Jr. and his wife Cathy have two handsome sons, Michael and Joseph.

The family became deeply involved in the community through business and personal associations such as Cape Coral Construction Industry Association, Cape Coral Chamber of Commerce, Rotary Club of Cape Coral Goldcoast, Cape Coral Jaycees, City of Cape Coral Code Enforcement Board and Licensing Board, Lee Building Industry Association, Cape Coral RC Hawks. Anthony Sr. and Robert are both Past Presidents of the CCCIA, the only father and son to hold that position.

Our valued relationship with Ringland Construction, Inc. and the Ringland family goes back to when they first came to this area in the early '90's. We have provided Electrical Contracting services for many of their projects throughout the years including dental offices, medical buildings, commercial projects such as North Trail RV Center in Ft. Myers, and a current project – Saturn of Cape Coral. We are pleased and proud to be a part of the Ringland Construction team.

Sincerely,

Robert Greco
President
