

**SATURN**

---

*Saturn of Cape Coral  
Saturn of Fort Myers  
Saturn of Naples*

December 16, 2007

To Whom It May Concern:

Ringland Construction has been the General Contractor for our new Saturn Dealership facility in Cape Coral, Florida. This facility is a new design developed by General Motors. We are approximately 7 weeks from completion. Progress has been as planned and has this has been a smooth project. Ringland Construction has a keen knowledge of local codes and regulations, which are crucial to completing a project on time, especially in Florida. In fact, Ringland was instrumental in helping me get approval from the City of Cape Coral to operate from a temporary facility while the permanent facility was being completed. The facility will be a "Flagship" for the Saturn Brand. A large group of General motors Executive Management is expected to be on hand for our Grand Opening event.

I have previously recommended Ringland to others who plan to build a commercial building. Additionally, the vendor I am purchasing my equipment from expressed their pleasure in working with Ringland and also has referred Ringland to their other clients.

Should you have any questions, feel free to contact me at (239) 939-7474

Sincerely,

Robert Goodman  
Owner/Operator
